SK

“ We always enjoyed our visits with Andy, either him arriving quietly in our driveway on his recumbent, or running into him while he was shopping in town. He would always regale us with his latest exploits and experiments: additions and improvements to his bike, his home and apartments, food preservation and preparation. We will miss his irrepressible, mischievous energy and his signature volcanoes ("No, they are NOT muffins!"). Much love, Steffa, Bob, and Autumn Krisniski
