“ *I am so sorry to see that you have passed.....no less from heart and lung failure. I know that medical condition lasted for days I hope you were not to uncomfortable. Your son also passed from the same health issues....but the hospital was able to revive him and put him in a coma for 12 hours while machines breathe for him....you guys are so alike. There will always be a place behind the drums for you in my house....You will live on in our minds....hearts and through your music with the Latin Dimensions. Maybe now that you are cremated you can go back to P.R. like you always wanted to. So many times I wanted to stop by your place on your road...but didn't. Let me say I respect you for telling me you were sorry....I know that word is hard to say. A small error was made in your obituary.....Selena is also your great grandchild....that makes 3 not 2.*  
*I won't say good bye...but I will say good night.....you can now REST IN PEACE.*  
*With much love.....cookie*
